

Dear guests and friends:

A lot has been spoken regarding the Covid-19 pandemic: we have heard different opinions for and against the quarantines, and there have been various recommendations and modifications for personal care and pandemic procedures.

Since the border closure in Argentina in March 2020, due to COVID 19, most lodges in the region have been working together on booking and cancellation policies in search of reasonable solutions for all involved and affected at that moment.

From our humble position, we are not looking for excuses or fault. Instead, we are concentrating on methods to ensure the safety and comfort of those who wish to travel, visit us and fish in one of the best places in the world. For those who have doubts we are here as well to answer questions and provide assurance as we steer through this pandemic.

We have been communicating online, with the goal of developing shared operating procedures to make your travel safe, easy and worry-free. We will be taking extra precautions to keep our valued guests and our employees healthy. We will implement stringent sanitation procedures and follow the latest regulations set in place. Together, we will soon implement extremely cared services, shared digital check-in and access to tools to help you organize your travel needs. We strongly believe that we are doing our best to keep Patagonia as a solid and secure destination and to take care of each other. Thank you for your trust and choice.

We feel extremely lucky to be so isolated in such a beautiful place. Hoping that the world will get healthy and ready to travel again. Outdoors, recreation, fishing and safe camaraderie could be a prime factor that will keep us sane during these times, maintaining a positive and engaged outlook. Making travel plans, preparing tackle and sharing fishing stories again will surely give all of us something to look forward to.

Stay strong and healthy
